

Continue

Samsung is going to launch their M20 successor Galaxy M21 phone recently has spotted in Geekbench and model number is SM-M21F, which is Samsung's own developed Exynos 9611 processor, currently a working Google camera (gcam) is now available for Galaxy M21. So, you can download Google camera 7.2 for Galaxy M21. Samsung Galaxy M21 comes with a dual or triple camera on the rear side and 48MP camera sensor with 8MP and 2MP depth sensor, the device has come with three different colors Blue, Black, and Green colors. That means you can use Google Camera or GCam on Galaxy M21. Google Camera 7.2 Features In this Google Camera 7.2 apk from Pixel 4 and Google Camera 6.1 series from Pixel 3 supports on Galaxy M21 . Now you can take impressive images as like GCam Astrophotography mode and Night Sight, Slo-mo, Portrait, Beauty Mode, Motion Images , HDR Enhanced, Lens Blur, PhotoSphere, Playground (AR Stickers), RAW support, Google Lens, and more. And here's the step by step guide to download & install Google Camera 7.2 for Oppo A5. Download Google Camera For Galaxy M21 You can download by a tap on the blue link below which version you want to use: Must Read | Google Camera APK For All Samsung Device Google Camera 7.2 Recommended Settings In here you can set up Google Camera 7.2 setting for better image quality For MGC 6.1.021_Arnova_xcam_mi9_v8.apk Go to Camera app Settings > HDR+ parameters > set it to 12 or according to your need. Change the Back Camera resolution to 16-megapixel. Go to Camera app Settings > Advanced > set base config Front Camera - Pixel 3 XL Back Camera - Pixel 3 XL Again open GCam Settings > Advanced > set Libs to Xlib V2.1s You can set the saturation values according to your needs. For MGC 7.2.018_RP11.MiVIII_V0b.apk There' is no need to change any setting Latest Google Camera 7.2. How To Install Google Camera 7.2 APK At first download the latest Google Camera APK 7.2 on your smartphone by using Google Chrome. Maybe your phone asks User permission to allow to install. Then just allow it. When it's done just open it and allow all the permission the Google Camera APK wants from you. That's It. Note: Before Installing the new Gcam Mod ported app, make sure to delete the older version (if you've installed). This is not a stable version of Google Camera, so it may have some bugs. South Korean tech giant and one of the most eminent smartphone manufacturers, Samsung has always impressed us with its stunning devices, the Galaxy devices being the most prominent ones. Not just the Galaxy S series or the A-series but also the M series devices are loved by users and are some really amazing devices. The M series packs some stunning mid-rangers with awesome specs at an equally amazing value for money. Samsung has increased the M-Series family with the launch of its latest device: Samsung Galaxy M21. The device launched back recently on 18 March 2020. The Samsung Galaxy M21 is a budget installment from the latest M series of devices. The device features a 1080p 6.4 Super AMOLED display. The device is powered by the Exynos 9611 SoC. It offers up to 6 GB of RAM and up to 128 GB of Storage. The smartphone runs on the latest iteration of OneUI 2 based on Android 10. The device is fueled by a gigantic 6000 mAh battery. Talking about the camera, the device sports a triple-camera setup at the back with a 48 MP sensor as the primary camera, an 8 MP sensor for capturing ultrawide shots and a 5 MP sensor for depth sensing. On the front, the device has got a 20 MP camera for shooting selfies. Overall, the Galaxy M21 can click some great pictures. Samsung Galaxy M21 specifications : Display 6.4 inches Super AMOLED Screen Processor Exynos 9611 (10nm) RAM 4 GB/ 6 GB Internal Storage 64 GB/128 GB Front Camera 20 MP, f/2.0, 26mm (wide) Rear Camera 48 MP, f/2.0, 26mm (wide), 1/2.0", 0.8µm, PDAF 8 MP, f/2.2, 12mm (ultrawide), 1/4.0", 1.12µm 5 MP, f/2.2, (depth) Software Android 10.0 with OneUI 2 Battery 6000 mAh The latest Google Camera for the Samsung Galaxy M21 boosts the performance of the image sensors along with the capability of the camera hardware and does an extremely great task in producing better images than the stock camera app. You can download the gcam apk from the link given below. GCam for Samsung Galaxy M21 STEP 1 - First of all, you need to download the working Google Camera APK for Samsung Galaxy M21. You can download the APK using the link mentioned below. Open the Google Camera app. STEP 4 - Follow these steps after opening the app for the first time. These steps will make sure that your app is working correctly. Click on More Option Open Camera Settings Open BSG MOD settings. Input Model Change -Interface Style - Pixel 2 Configurations- PIXEL2018 ZSLR HDR+ Go back - Enable Google Photos Disable Zoom (Preferably) Enable HDR+ Enhanced in Portrait Mode Open Saturation Highlight Saturation - 1.8 Shadow Saturation - 2.4 (For REAR camera) Restart the app again. Note : If the above gcam apk doesn't work for you. Download the older apks from below: Older Gcam for Samsung Galaxy M21 DOWNLOAD NOW (VERSION 1) DOWNLOAD NOW (VERSION 2) There you go Folks. you have now google camera rocking on your latest Galaxy M21. Enjoy taking some great shots. In case you face issues with the gcam, do let us know in the comment section below. The Samsung Galaxy M21 2021 Edition, like any other smartphone, is equipped with a camera. To interact with it, a camera app of the same name is installed on the phone, which is used to take pictures and record videos. However, you can also install Google Camera in your Samsung Galaxy M21 2021 Edition for several reasons.Why Google Camera is neededIt would seem that if the Samsung Galaxy M21 2021 Edition already has a camera app, why would you need additional software? That question will be answered by anyone who's ever held a Pixel phone in their hands. On it, GCam is installed by default and is used as a stock app.Despite the fact that the photographic sensors on Google phones don't boast great resolution, size or aperture, the device takes much better pictures than the Samsung Galaxy M21 2021 Edition. It's all about the algorithms responsible for image processing. Google has reached unprecedented heights in this area, which is why the photos come out brighter and more contrasty when using the American company's camera app.Setting up a Google cameraThe creators of the app are deliberately restricting owners of other devices so that people will buy the Google Pixel because of GCam. You won't find the app on your Samsung Galaxy M21 2021 Edition via the Google Play Store, so you'll have to go trickier.№1. Check compatibilityThe quality gains with GCam are only available on devices with Camera 2 API support. Therefore, you should first check your Samsung Galaxy M21 2021 Edition for compatibility: Install the Camera2 API Prob app via Play Store and then open it. Examine the information provided opposite "Hardware Support Level". Here you should see "FULL" or "LEVEL_3" highlighted in green. If these settings are highlighted in red, then Google Camera will either not provide sufficient quality enhancement or will not start at all. But it's still worth a try.№2. Download a suitable GCam buildOnce you've verified that your phone supports GCam, you can move on to downloading the distribution. It can be found on various resources, but we recommend downloading Google Camera on Samsung Galaxy M21 2021 Edition using celsoazevedo.com, which offers a huge number of GCam builds and mods. To download, you'll need. Open the page located at www.celsoazevedo.com/files/android/google-camera/. Go to "Suggested Versions". Expand the tab corresponding to the Android version as well as the latest GCam version. Tap on the name of the build you like and confirm the download. Now all that's left is to install the app on your smartphone. If you've never installed an app without Play Store, read the rest of this article.№3. Install Google CameraYou might have some difficulties with the installation, as Samsung Galaxy M21 2021 Edition by default blocks the installation of apps from unknown sources. Follow the instructions to complete the operation without any hassle: In the security settings, activate the "Unknown sources" item. Open the previously downloaded APK file. Press the "Install" button. Within seconds the port will be installed and you'll be able to check how Google Camera works on your Samsung Galaxy M21 2021 Edition. You may need to try several builds of the app to get a good result, as they are all unofficial and therefore not always GCam is better than the stock camera app. Share this page with your friends: See also:How to flash Samsung Galaxy M21 2021 EditionHow to root Samsung Galaxy M21 2021 EditionHard reset for Samsung Galaxy M21 2021 EditionHow to reboot Samsung Galaxy M21 2021 EditionHow to unlock Samsung Galaxy M21 2021 EditionWhat to do if Samsung Galaxy M21 2021 Edition won't turn onWhat to do if Samsung Galaxy M21 2021 Edition doesn't chargeWhat to do if Samsung Galaxy M21 2021 Edition doesn't connect to PC via USBHow to take a screenshot on Samsung Galaxy M21 2021 EditionHow to reset FRP on Samsung Galaxy M21 2021 EditionHow to call recording on Samsung Galaxy M21 2021 EditionHow to update Samsung Galaxy M21 2021 EditionHow to connect Samsung Galaxy M21 2021 Edition to TVHow to clear the cache on Samsung Galaxy M21 2021 EditionHow to backup Samsung Galaxy M21 2021 EditionHow to disable ads on Samsung Galaxy M21 2021 EditionHow to clear storage on Samsung Galaxy M21 2021 EditionHow to increase font on Samsung Galaxy M21 2021 EditionHow to share internet on Samsung Galaxy M21 2021 EditionHow to transfer data to Samsung Galaxy M21 2021 EditionHow to unlock bootloader on Samsung Galaxy M21 2021 EditionHow to recover photos on Samsung Galaxy M21 2021 EditionHow to record the screen on Samsung Galaxy M21 2021 EditionHow to find blacklist in Samsung Galaxy M21 2021 EditionHow to set up fingerprint on Samsung Galaxy M21 2021 EditionHow to block number on Samsung Galaxy M21 2021 EditionHow to enable auto-rotate on Samsung Galaxy M21 2021 EditionHow to set up or turn off an alarm on Samsung Galaxy M21 2021 EditionHow to change ringtone on Samsung Galaxy M21 2021 EditionHow to enable battery percentage on Samsung Galaxy M21 2021 EditionWhere is the recycle bin on Samsung Galaxy M21 2021 EditionHow to install WhatsApp on Samsung Galaxy M21 2021 EditionHow to set contact photo in Samsung Galaxy M21 2021 EditionHow to scan QR code on Samsung Galaxy M21 2021 EditionHow to connect Samsung Galaxy M21 2021 Edition to computerHow to install SD card in Samsung Galaxy M21 2021 EditionHow to update Play Store in Samsung Galaxy M21 2021 EditionHow to enable USB debugging on Samsung Galaxy M21 2021 EditionHow to turn off Samsung Galaxy M21 2021 EditionHow to charge Samsung Galaxy M21 2021 EditionHow to use the camera on Samsung Galaxy M21 2021 EditionHow to find lost Samsung Galaxy M21 2021 EditionHow to set password on Samsung Galaxy M21 2021 EditionHow to turn on 5g on Samsung Galaxy M21 2021 EditionHow to turn on VPN on Samsung Galaxy M21 2021 EditionHow to install apps on Samsung Galaxy M21 2021 EditionHow to insert a SIM card in Samsung Galaxy M21 2021 EditionHow to enable and configure NFC on Samsung Galaxy M21 2021 EditionHow to set time on Samsung Galaxy M21 2021 EditionHow to connect headphones to Samsung Galaxy M21 2021 EditionHow to clear browser history on Samsung Galaxy M21 2021 EditionHow to disassemble Samsung Galaxy M21 2021 EditionHow to hide an app on Samsung Galaxy M21 2021 EditionHow to download YouTube videos on Samsung Galaxy M21 2021 EditionHow to unblock a contact on Samsung Galaxy M21 2021 Edition How to Install Google Camera in Another Phones
